## *Book Donation Guidelines*

### **Purpose:**

The purpose of this book grant is to provide new books for remedial reading programming to organizations that serve in underserved communities.

### **Programming:**

We will provide books for circulation and story time in school and public libraries, remedial reading programs in schools, afterschool programs and community centers. We will also provide books for story time in home daycares and daycare centers.

*Each application will be reviewed on its merits. Submitting an application does not mean that your request will be automatically granted.*

The Roads to Reading Literacy Initiative is not a book bank and we do not make book donations to organizations that do not facilitate on-site programming. An example of this may be a summer camp, school or library that has a reading program with professionals or para-professionals working directly with children to improve reading and communication skills.

**Side Note:** We want to let you know in advance that we will *no longer* entertain request for books to be used as gifts, prizes, event handouts and in-home literacy programs. Also the books that we donate cannot be redistributed to other businesses including non-profits or individuals, the books must be used for the literacy program(s) that are administered by your organization requesting the donation. If your organization has multiple locations, each location must apply separately.

*From time to time we make unrestricted donations of books that can be used as the recipient organization's discretion. Unrestricted donation announcements will be made via email blast.*
